U. S. SOLDIERS GUARD FOOD IN RUSSIA

Soldier with 339th U. S. Infantry, at right, standing guard at food warehouse in Archangel, Russia.

Among the many important duties of the American soldiers in Russia is that of guarding the food supplies—their own and those for the residents—against Bolshevik mobs and vandals. The photo shows a group of oatmeal being taken into a warehouse in Archangel while an American soldier stands guard at the door to prevent any one but warehouse employees and officials entering.

HUNS MORE DOCILE AT KREUTZ MEET.

Not So Chesty As When They Appeared at Brest Litovsk to Meet Bolsheviks.

(Associated Press Telegram) Paris, Thursday, March 6.—A Havas dispatch from Poznan, dated Wednesday, tells of the meeting of allied and German missions at the village of Kreutz, where negotiations for a new armistice between Germany and Poland will be held. The allied mission arrived at Kreutz at 11:30 o'clock, Wednesday morning, and the train bearing the German delegates, headed by Baron von Rechenberg, who was accompanied by Dr. Dreves, the Prussian minister of the interior, and General Dommes, arrived at 12:20 o'clock. Mr. Neulens, former French ambassador to Russia, and General Dupont introduced the delegates on the railway platform.

The courteous demeanor of the Germans was noted as being distinctly different from that shown at Brest-Litovsk last year when they were so truculent toward Leon Trotsky, the then Bolshevik minister of war, and his friends. After the German delegates had declared that their government retained full authority over the German troops along the Polish front, the armistice terms bearing on the Polish boundary were examined. A line of demarcation will be fixed by a sub-committee which will be given power to maintain a neutral zone between German and Polish forces there.

The allied commission demanded formal guarantees for the landing of Polish troops at Danzig and their passage as far as the Polish frontier. The German delegates telegraphed the details of this demand to Berlin. The liberation of hostages and the protection of Germans in Posen and Poles in Germany on a reciprocal basis was taken up. The Germans declared they were ready to continue the deliberations at Posen and the allied delegates assented, undertaking to answer for the good behavior of the population during the period of negotiations.

In another announcement Secretary Baker made known that Brigadier Edward A. Kregar had been ordered to return from France to become acting judge advocate general during the absence of Major General Enoch H. Crowder in Cuba.

London, March 7.—A German wireless dispatch received here states that in addition to the volunteer marine division and a portion of the republican militia, parts of the Second Guards regiment and the Guards Fusilier regiment went over to the Spartacans on Wednesday.

Owing to the strike of printers and compositors, the Wolff Bureau is said to be unable to circulate its printed bulletins.

A Berlin dispatch to the Mail sent from there Wednesday midnight asserted that it was reported in government circles that as a result of a compromise reached at Weimar the strike might end today.

New York, March 7.—Union leaders today formally considered the overtures made yesterday by the railroad administration to end the strike of their employees among the harbor marine workers. While it was said the proposed new wage and hour schedule was not altogether satisfactory to the strikers, it was accepted on the basis for continuing the negotiations.

The administration's proposal, it is said, provides for increases up to fifteen per cent and extends the eight-hour day to certain classes of workers. It was intimated by union officials that counter proposals would be submitted during the day through the medium of James L. Hughes, a mediator of the federal department of labor, who has been active in arranging the conferences.

BOAT DRILL CALLS WILSON FROM BED

Signal To Abandon Ship Came Before President Had Finished Sleep.

(Associated Press Telegram) On Board U. S. S. George Washington, March 7.—(By Wireless to the Associated Press.)—President Wilson's rest this morning was cut short by the sounding of a general alarm summoning all hands to the boats to abandon ship. The signal for the boat drill came at 9 o'clock and the President arose and escorted Mrs. Wilson to their boat. He adjusted Mrs. Wilson's and his own life belt and stood quietly until the drill was completed.

The President today sent a wireless message to William J. Bryan, who has been ill.

ANSELL TESTIFIES AND IS REDUCED IN RANK

(Associated Press Telegram) Washington, March 7.—Return of Brigadier General Samuel T. Ansell, who acted as judge advocate general during the war, and 11 other brigadiers to their regular army ranks, is provided in an order by Secretary Baker, published today.

General Ansell, who will return to the rank of lieutenant colonel to which he was commissioned March 15, 1917, recently testified before congressional military committees against unduly severe court martial sentences and has been one of the central figures in the resulting controversy. On announcing the order Secretary Baker declared that the demotions came through the process of returning the army to a pre-war status and that the fact that General Ansell was among the number had "no relation to the controversy which has resulted with regard to the administration of military justice and clemency."

In another announcement Secretary Baker made known that Brigadier Edward A. Kregar had been ordered to return from France to become acting judge advocate general during the absence of Major General Enoch H. Crowder in Cuba.

WOULD PROVIDE FOR BIG FORCE

British House of Commons Gets Bill For Compulsory Service For Army of Occupation.

(Associated Press Telegram) London, Thursday, March 7.—Captain P. E. Gust, introduced a bill in the house of commons today which proposes compulsory service for the British army of occupation. This army, according to the bill, would be composed of 300,000 men and the enlistment period would expire on April 30, 1920. Alexander Shaw, laborite, moved the rejection of the measure because the labor party is opposed to a continuance of conscription.

Colonel Winston Spencer Churchill, defending the bill, argued that the government in providing for an army to insure peace, was "pursuing a path toward universal voluntary service."

"Our delegates to the peace conference are fighting for the complete abolition of conscription in Europe," he said. "The armed demand has been made that Germany be permitted to have only a small voluntary army on a long service basis, but it is uncertain whether this point will be carried. Our representatives stand almost alone in this matter and it is not at all impossible that Japan, France and Italy, and even the United States, will be nations into whose military systems some element of compulsory service may enter."

"There is not the slightest note in the suggestion that this bill be designed to force troops to be sent into Russia," he continued.

"If there was no such place as Russia, I would still be advocating this bill. No one would be so foolish as to suggest intervention in Russia with conscript troops. Our army along the Rhine and on the approaches leading up to that river numbers about 420,000 men, which is no larger than the United States army there, and much smaller than the forces France is maintaining in the occupied area."

Andrew Lomar Law, government leader, in a house of commons, maintained that the bill involved no departure from election pledges and evoked loud cheers by asking:

"Is it really suggested that, after fighting side-by-side with France for four and a half years, we are now going to leave it to France alone?"

He concluded by declaring that Premier Clemenceau had said:

"If we do not take care, when British and American armies have disappeared, we shall be faced again by the same danger."

The bill passed second reading by a vote of 304 to 71.

German Govt. Forces Besieged In Berlin Headquarters Find Communication Is Severed.

(Associated Press Telegram) Copenhagen, March 7.—Police headquarters in Berlin, which has been besieged by the Spartacans for two days, was cut off from all communication with other government forces in the German capital late Thursday when the Spartacans cut the telephone lines, according to a telegram from Berlin.

Eight persons were killed and a number wounded in the fighting there Thursday.

NEGOTIATIONS FOR GERMAN SHIPPING ARE BROKEN OFF

Germany Demanded 2 1/2 Million Tons of Food For Ships

ALLIES DEMANDED FLEET WITHOUT REGARD TO FOOD

Shipping Finance and Food Must Be Dealt With For Convoys Assert

(Associated Press Telegram) London, March 7.—The negotiations at Spa relating to the shipping question have been temporarily broken off, according to a German wireless message received here today. The allies, the message says, demanded that all the remaining German merchant ships be handed over unconditionally, without being willing to undertake the obligation of supplying Germany with foodstuffs. The German delegates, it is added, received instructions from their government that the question of shipping, finance and food supply must be dealt with only as a whole. The German message continues:

"The question of handing over the mercantile fleet can only arise if adequate food supplies, say 2,500,000 tons of foodstuffs, are assured to Germany until the new harvest. The allies would not agree to this. As the instructions of both sides did not go beyond this a French delegate proposed that negotiations be broken off, whereupon the two special delegations left Spa."

ORDERS RELEASE OF 22000 MEN MONTHLY

(Associated Press Telegram) Camp Sherman, Chillicothe, March 7.—That the rate of discharge here will be accelerated following the receipt of war department orders, is the belief of camp officers. The maximum number of soldiers that may be dismissed from the service here a month is 22,000. Camp Dodge will discharge 30,000 men a month, and Camp Grant, Ill., 24,000. During the same period of time.

AMERICAN ELECTED TO BRITISH OFFICE

(Associated Press Telegram) London, March 7.—The Duchess of Marlborough, formerly Miss Consuelo Vanderbilt of New York, was elected to the county council today from the North Devon constituency by a large majority over her opponent, a labor candidate. She stood for election as progressive.

Many distinguished guests were present, including former American Ambassadors and Mrs. W. G. Sharp, Colonel and Mrs. E. M. House, General John J. Pershing, General Tasker H. Bliss and many Persians who were in Paris.

In an address of welcome the Persian minister said that the Persian people expressed the conviction that the American government and its assistants would not refuse to aid his country. Mr. Lansing in reply paid tribute to the Persians, congratulated them for their autonomy and expressed the hope that Persia and America would join hands in building a "new structure that will be eternal."

MONROE DOCTRINE IS SAFEGUARDED BY WORLD LEAGUE

Former President Taft Declares Its Principles Are Not In Danger

URGES NATION TO SUPPORT PROPOSED PEACE LEAGUE

Believes Senate Will Ratify Treaty When It Is Finally Presented

Pittsburgh, March 7.—Pleading for nation-wide support of the principles underlying the proposed league of nations, and scoring the action of Senatorial objectors, Former President William H. Taft addressed a mass meeting in Syria Mosque last night.

Mr. Taft grew most emphatic in his denunciation of those groups of men who were opposing the plan, and declared the same objections made now were made against the adoption of the Constitution of the United States and the inauguration of the supreme court.

He told of the arbitration treaties he had attempted to inaugurate while he was president, and of their being blocked in the senate. He declared, too, that public sentiment was crystallizing in favor of the principles laid down by President Wilson, and that only a defined public opinion could make these senators change their stand. This change, he declared, would come as soon as enough people understood the object and plans of the league of nations.

In his address he said in part: "During my administration as president I attempted to secure two treaties of universal arbitration between this country and France and England, by which all issues depending for their settlement upon legal principles were submitted to an international court for final decision. Those treaties were emasculated by the senate, yielding to the spirit which proceeds unconsciously, doubtless, but truly, from the conviction that the only thing that will assure to a nation the justice it wishes to see is the sword."

"This is the doctrine of despair. It leads necessarily to the conclusion that our only recourse to avoid war is competitive armament, with its dreadful burdens and its constant temptation to the war it seeks to avoid."

"The first important covenant with reference to peace and war in the constitution of the league is that looking to a reduction of armament by all nations. The executive council consisting of a representative from the United States, Great Britain, France, Italy and Japan, and with a representative each from four nations to be selected by the body of delegates, is to consider how much the armaments of the nations should be limited and reduced, having regard to the safety of each of the nations and its obligations under the league."

"The next covenant is that the nations should not begin war until three months after the arbitration award or the recommendation of the committee, and not until the defendant nation against whom the award or the recommendation has been made shall comply with it. If a nation refuses submission at all, as it does when it begins an attack, the nation attacked is to submit and is restored to the complete power of self-defense."

"The third covenant, the penalizing covenant, is that, if a nation begins war, in violation of its covenant, then have the same fate in 1917 and will have the same fate in 1919 in regard to the league of nations."

"The article concludes with the expression of the confidence in the league of nations, which has been shown by the French press during the past week, asserting:

"The ancient 'European concert' has gone bankrupt and must be replaced by the institution of something more solid and more efficacious."

ADmits MURDER; INVOLVES HIS PAL

Marion Sheriff Arrests Suspect Who Says His Pal Is Now In Mansfield Reformatory.

(Associated Press Telegram) Marion, March 7.—Authorities announced today that Sheriff Elton has made an arrest that is believed will lead to the solution of the murder of Mrs. Clyde Seranton on the night of January 24, last. The man arrested has confessed, it is said, and has been committed for safe keeping. He implicated another man, and yesterday it was said he had identified him in the Ohio state reformatory at Mansfield.

The second man, who was sentenced recently for attacking a woman a few days after the Seranton murder, denied he was implicated in the murder, but the other man insisted that both of them had killed Mrs. Seranton.

PRESIDENT ON WAY TO FRANCE AGAIN

This photo was taken just as the steamer George Washington was leaving New York Wednesday for France. President and Mrs. Wilson are seen on the bridge. The smiles which wreath the president's face would seem to indicate that he is not worried by senate opposition to the league of nations plan.

TAFT IS PRAISED BY PARIS PAPERS

French Newspaper Endorses Broadminded Views of Former President On League of Nations.

(Associated Press Telegram) Paris, Thursday, March 6.—It was hand in hand with William H. Taft, who was elected president by the Republicans, that President Wilson presented himself at the Metropolitan Opera-house in New York to speak on the league of nations, says the Journal Des Debats in the course of an editorial commenting on the situation in America. The newspaper argues that "Senator Lodge's arguments against the league of nations are the same as those used against the entry of the United States into the war. These arguments proved false in 1917 and will have the same fate in 1919 in regard to the league of nations."

The article concludes with the expression of the confidence in the league of nations, which has been shown by the French press during the past week, asserting:

"The ancient 'European concert' has gone bankrupt and must be replaced by the institution of something more solid and more efficacious."

AMERICANS WILL PAY FOR RATIONS IN RHINE VALLEY

Payment Will Be Made As Bills Are Contracted In Decision

WILL REQUIRE BERLIN GOVT. TO SEND MONEY PROMPTLY

When Troops Leave Commander Will Get Receipts In Full

(Associated Press Telegram) Coblenz, Thursday, March 6.—All indebtedness contracted by Americans within the occupied territories of Germany will be paid immediately. Authorization to this effect was obtained by the third army today and from this date on the Americans will pay their way as they go. The money to pay the back bills and the bills of the future will be requisitioned from Berlin, the army thus relieving the civilians of the occupied territory from taking the chances of collecting from the German government.

When the Americans eventually start homeward not one pennig will be owing to civilians who have claims for services rendered or for billets in hotels or houses or claims of any other kind in connection with the upkeep of the United States troops so far as the army records are concerned. Before the departure of the forces the commanders of the various units will confer with the burgomasters of the respective cities and villages in the district and as a final formality will receive from the burgomasters receipts in full, showing all debts cleared up under this plan.

Since the Americans came the burgomasters have been paying the civilians their bills, but recently the Germans reported that their funds were exhausted and that they were unable to obtain more money from Berlin. The Coblenz burgomaster's office thus owes more than 500,000 marks for bills contracted in connection with the maintenance of the Americans.

The Americans have been for some time in favor of putting the immediate payment plan in practice but before it could be inaugurated it was necessary to gain the consent of the allied command.

The ground taken by the Americans is that it will be more worthy of them to pay as they go, rather than leave debts in the hands of civilians who might or might not in the course of time be able to collect from the more or less unstable treasury in Berlin. Therefore the Americans will do the collecting from the German government.

FIRST FOUR SHIP DOCKS AT PORT IN BALTIC

(Associated Press Telegram) Berlin, Wednesday, March 5.—A Danzig dispatch reports the arrival there of the first food ship since the raising of the Baltic blockade. It carries a cargo of vegetables from Poland, consigned to Danzig by Dutch merchants.

The dispatch states that the American food commission at Danzig has recommended to the entente powers that permission be granted for the importation of Danish and Norwegian herring on account of the precarious food situation in Germany. The American commission is reported to have allowed the city of Danzig 500 tons of food and bacon, acknowledgement of the services rendered to the food authorities in the transmission of food consignments to Poland.

LODGE DESIRES FULL DISCUSSION OF LEAGUE

(Associated Press Telegram) Boston, March 7.—The position of Senator Lodge on the proposed League of Nations was outlined in a signed statement made public here today.

"My desire," he said, "is to have the constitution for a league proposed by the commission of the peace conference thoroughly and carefully discussed and considered. If it will not bear discussion it is not fit for adoption. On the other side, no discussion will only strengthen it. There must be no haste and no rashness in determining the most momentous question ever presented to the people of the United States to the world."

MAKE MEDALS FROM CAPTURED HUN CANNON

(Associated Press Telegram) Washington, March 7.—Medals made from captured German guns will be awarded by the treasury department to all Liberty Loan workers who participate actively in the coming Victory Liberty Loan campaign. The treasury announced today that the medals would be distributed to all members of local Liberty Loan committees who do conspicuous work in behalf of the next loan, such as serving on volunteer soliciting committees. The medal was described as about the size of a half dollar. On one side would be reproduced the Liberty Loan emblem, and on the other side would be a certificate of participation in loan campaigns with a blank space for engraving the name of the recipient. Treasury officials said the medals were now being made from German cannon captured by the American at Chateau Thierry.

His Proposal to Abandon Joint Taxation Plan Not Agreeable to All Legislators.

(Associated Press Telegram)
Columbus, March 7.—Members of the legislature were divided today in their opinions on the proposal of Karl Kimball, Republican speaker of the house, to abandon the plan of the joint taxation committee for providing temporary relief for cities and local taxing districts and resubmitting classification amendment immediately.

If it is not approved by him then they may consider the question of submitting the classification amendment at once.

Will the Senate Defeat the League of Nations?

So violent and sweeping is the criticism of President Wilson's League of Nations program that has flared up in the United States Senate that some editorial observers are asking whether it is possible that this covenant against war will be wrecked at last by the nation that has been regarded as its special sponsor.

The Evening Sun, New York, dismisses it as a "project of transcendental fatuity." As Senator Borah sees it "this is the first step in internationalism and in the sterilizing of nationalism," while to join the League insists Senator Reed, would be to "surrender by the pen what Washington gained by the sword." On the other hand "we want a League of Nations to prevent war, and we ought to be able to get it," thinks the *Minneapolis Tribune*, and the *Philadelphia Public Ledger* accuses some of our Senators of flaunting "scarecrows" to frighten America away from the league and declares that "to cast coal-oil on the flames of smoldering Europe just now is neither senatorial or sane."

Read **THE LITERARY DIGEST** this week—March 8th—for all the news of President Wilson's proposed League of Nations program from all angles of public opinion in the United States.

The People Who Read "The Digest"

The best test of any periodical is the class of its readers. Character in a magazine or a newspaper attracts men and women of standing and judgment as inevitably as a flower draws the bee, and for the same reason. It suits their taste. Glance around you in the train, on the street-cars, in hotel lobbies, wherever your fellow humans congregate, and note the people who read **THE LITERARY DIGEST**. They are the best type. They buy "The Digest" because they know it is accurate, impartial, wholesome, comprehensive, and up-to-date, because they can take it home to their children with confidence, and because it covers the world's news as no other periodical does. Are you with them?

Central Power Employees Entertained at Banquet

ENTERTAINMENT FOR BLIND IS PLEASING

A large audience filled the high school auditorium last night to witness the performance arranged for the benefit of the blind. The proceeds were to be used to establish a fraternal home for the blind who go to Columbus to be trained.

The program was varied and included aesthetic dancing and solo numbers. Both vocal and instrumental. Miss Ruth Mills gave a charming interpretation of the modern dances, and Miss Dorothy Moore presented an accomplished pianist.

DRUGGIST EVANS HAS MANY ORDERS FOR NERV-WORTH

One of These Came Not Long Ago From Council, North Carolina.

The sale of Nerv-Worth, which Druggist T. J. Evans continues to make on a large scale, is by no means confined to Newark and Licking county. Frequently suffers from nervous illness who have visited Newark and have made a test of Nerv-Worth while here or others who have read the Nerv-Worth statements in the Newark papers and have tried it to them. A case in point came to light a few days ago when in Mr. Evans' mail an order was received for Nerv-Worth from C. C. Shaw of Council, N. C. The parcel post promptly did its work and Mr. Shaw was in possession of his Nerv-Worth. The fact is that when a sufferer has tried Nerv-Worth he insists on having it, no matter what the distance from the source of supply, and wishes to take any substitute.

Send dollar back at the T. J. Evans drug store, Newark, if Nerv-Worth fails to cure you.

13TH NO HOODOO FOR THIS YANKEE

Sails On Friday and the 13th Too. But Makes Safe Journey to France.

The jinx on Friday and 13 failed to work for the company of which private Nathan Evans was a member. He

wrote his mother Mrs. P. B. Evans that they left Montreal on September 2, 1918 and were on seven days voyage back and transferred at Quebec to the Transatlantic, leaving on Friday, the 13th. However they landed in England on the 15th without having seen the sign of a submarine. In the letter to his mother he wrote: "I am not a fortune teller, but for the last 11 days, I will try and give you an outline of my trip, from the first of September when I left Camp Mills on Sunday, September 1st, and went to Montreal, Canada, via Bridgeport and New Haven, Conn., Springfield, Mass., and on up the Connecticut river to Canada. We left

Montreal on the second of the ship on the first of October and went into Cherbourg, France, where we landed at Cherbourg, France, on the 13th. We were out seven days and camp there for 11 days. BROTHER TELLS OF COCANOUR'S DEATH

Investigation in Europe Reveals That Soldier Died November 2, of Pneumonia.

That Corporal Joseph Cocanour, 22, of the 10th company, Sixth regiment of United States marines, died November 2 in France of lobar pneumonia is the word his father, W. H. Cocanour, has received from another son, W. H. Cocanour, who is also in France. Mr. Cocanour, who lives in East Main street, had not heard from his son since the latter sailed for Europe. He tried in every way to get trace of him and had written his other son in France to endeavor to locate his brother. W. H. Cocanour, who is with the 128th engineers, wrote to the central records office but in a letter received from him last Saturday he stated he had no reply and was going to get leave and a pass to hunt his brother.

Monday night the family had a cablegram from him telling that Corporal Cocanour had died November 2 of lobar pneumonia. Corporal Cocanour enlisted last summer while he was employed in a clothing store in Fredericktown. He landed in France on June 9, 1918. While in Newark he worked at the Rutledge Brothers clothing store. The Cocanour family has been sadly stricken. On October 17, a third son, Charles Cocanour, died of influenza in Newark, and this was closely followed by the death of his wife and mother-in-law. The family has had no official notification from the government concerning their son.

REPORT SALE OF ZANESVILLE SIGNAL

Columbus, March 6.—According to a report received here yesterday, the Zanesville Signal, the afternoon Democratic newspaper of Muskingum county, has changed hands at a price of \$125,000. Charles Gibson will be manager. He succeeds in that position Jay R. Alexander, former owner and now postmaster.

"There is plenty of room at the top," remarked the barber who was trying to sell the bald-headed customer a bottle of hair restorer.

"Gee-Whiz! How it Hurts—"
"—The Pain in My Foot!"

"Sometimes it is in my arm. Merciful Heaven, how my back hurts in the morning!" It's all due to an overabundance of that poison called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking the advice of Dr. Pierce, which is "Keep the kidneys in good order." "Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking Anuric." This can be obtained at almost any drug store.

Send a bottle of water to the chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night, take heed, before too late. Get Anuric (anti-uric-acid), for it will put new life into your kidneys and your entire system. Ask your nearest druggist for it or send Dr. Pierce ten cents for trial package.

Need Attention in March or Face May Stay Covered.

Now is the time to take special care of the complexion if you wish to look well the rest of the year. The March winds have a strong tendency to bring out freckles that may stay all summer unless removed. Now is the time to use Othine---double strength.
This preparation for the removal of freckles is usually so successful that it is sold by druggists under guarantee to refund the money if it fails. Get an ounce of Othine---double strength, and even a few applications should show a wonderful improvement, some of the smaller freckles even vanishing entirely.---Adv.
